SOFTWARE ENGINEERING

Passionate software engineer with a strong drive to continuously learn and expand my skillset. Highly adaptable and eager to take on new challenges, I thrive in collaborative environments where I can contribute as a team player. Experienced in front-end development using HTML, CSS, and JavaScript, complemented by a growing expertise in Python. Committed to delivering high-quality work and staying up-to-date with the latest industry trends and technologies.

KEY COMPETENCIES

Process improvement	Frontend Developer	Strong interpersonal skills
Data-driven strategic planning	Critical thinking skills	Proactive and self-motivated
Python Programming	Excellent communication skills	Exceptional organisational skills

---

PROFESSIONAL EXPERIENCE   February - March 2024

Rwanda Basic Education
Volunteer As mentor

Trained students for First Lego League (FLL) Robotics competitions, teaching them technical skills in building and programming Lego Mindstorms kits, as well as guiding them on competition rules, strategies, and core values like teamwork, inclusion, impact, and critical thinking. Also provided feedback to students on their innovation projects for Masterpiece FLL competitions, helping them refine their ideas, develop problem-solving approaches, and enhance their presentation skills.

Zimbabwean Registration Offices   June 2022 - August 2023
Registrar

Responsible for the full life cycle of vital records management, including capturing and registering birth certificates, identity cards, and death certificates, recording daily birth and death statistics, assisting elderly and illiterate individuals with documentation procedures, issuing burial and cremation documents, collecting payments, overseeing the registration process and managing paperwork to facilitate timely services. Safeguarded the integrity of the registration system by being vigilant about fraudulent activity and forged documents, while also preparing and issuing replacement documents as needed.
